

## **MANAGEMENT’S DISCUSSION AND ANALYSIS SECOND QUARTER ENDED JUNE 30, 2020**

The following management’s discussion and analysis (“MD&A”) of EURO Ressources S.A. (“EURO” or the “Company”), dated August 6, 2020, is intended to supplement and complement the unaudited condensed interim financial statements and notes thereto for the second quarter and six months ended June 30, 2020. This MD&A has been prepared by management and approved by the Audit Committee and the Board of Directors of the Company, and should be read in conjunction with EURO’s audited annual financial statements and related notes for December 31, 2019 and the related MD&A. Financial information is presented in Euros (€ or euros), unless stated otherwise and in accordance with International Financial Reporting Standards (“IFRS”) as approved by the International Accounting Standards Board. Additional information on EURO can be found at [www.sedar.com](http://www.sedar.com). EURO’s securities trade on the NYSE Euronext of Paris stock exchange under the symbol EUR. Readers are cautioned that this financial information contains certain forward-looking information as described in this MD&A.

### **About EURO**

EURO is a French company whose main assets are a royalty on the Rosebel Gold Mine production in Suriname (the “Rosebel royalty”), a royalty on the Paul Isnard concessions, and marketable securities. The Rosebel Gold Mine is 95%-owned by IAMGOLD Corporation (“IAMGOLD”), and is operated by IAMGOLD. The royalty on the Paul Isnard concessions is a net smelter returns production royalty on future production of the Paul Isnard concessions and an area of interest surrounding the concessions in French Guiana, owned under a joint venture agreement between Orea Mining Corp. (formerly Columbus Gold Corp., which changed its name on June 4, 2020) (“Orea”) and Nord Gold SE (“Compagnie Minière Montagne d’Or” or the “JV”).

EURO receives quarterly royalty payments from IAMGOLD. The Rosebel royalty payments from IAMGOLD apply to the first seven million ounces of gold production at the Rosebel mine and the market price of gold based on the Afternoon London Price. As of June 30, 2020, the Rosebel mine had produced 5.35 million ounces of gold and 1.65 million ounces of gold remain under the Rosebel royalty agreement. Per IAMGOLD, Rosebel’s proven and probable gold reserves as at December 31, 2019 were estimated to be 3.5 million ounces of gold. These reserves do not include reserves of the Saramacca deposit of the Rosebel mine as they are not included in the definition of the property per the participation right agreement. The Rosebel royalty is calculated based on 10% of the excess gold market price above US\$300 per ounce for soft and transitional ore, and above US\$350 per ounce for hard rock ore, and, in each case, after deducting a fixed royalty of 2% of production paid in-kind to the Government of Suriname.

A feasibility study for Montagne d'Or (part of the larger Paul Isnard sector) was filed in May 2017. On November 27, 2018, Orea announced that the Montagne d'Or joint venture provided its official decision to French authorities to move forward with permitting and development of the Montagne d'Or gold mine. The decision takes into account the recommendations of the French National Commission of Public Debate to make certain modifications to the project. There is opposition to the Montagne d'Or mine development, principally by non-governmental organizations and some politicians.

EURO has approximately 62.5 million shares outstanding. At June 30, 2020, IAMGOLD France S.A.S. ("IAMGOLD France"), an indirect wholly owned subsidiary of IAMGOLD, owned approximately 89.71% of all issued outstanding shares of EURO. As at June 30, 2020, IAMGOLD France held 56,058,191 shares representing 112,116,382 voting rights or 94.25% of the voting rights of EURO. This threshold crossing results from a double voting rights allocation.

### **CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION**

All information included in this MD&A, including any information as to the Company's future financial or operating performance, and other statements that express management's expectations or estimates of future performance, other than statements of historical fact, constitute forward-looking information or forward-looking statements and are based on expectations, estimates and projections as of the date of this MD&A. This MD&A contains forward-looking statements, with respect to the Company's financial condition, results of operations, business prospects, plans, objectives, goals, strategies, future events and capital expenditure. Forward-looking statements are generally identifiable by, but are not limited to, the use of the words such as "anticipates", "expects", "intends", "plans", "forecasts", "projects", "budgets", "believes", "seeks", "estimates", "could", "might", "should", and similar expressions identify forward-looking statements. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by management, are inherently subject to significant business, economic and competitive uncertainties and contingencies and, as such, undue reliance must not be placed on them. The Company cautions the reader that reliance on such forward-looking statements involve risks, uncertainties and other factors that may cause the actual financial results, performance or achievements of EURO to be materially different from the Company's estimated future results, performance or achievements expressed or implied by those forward-looking statements. Forward-looking statements are in no way guarantees of future performance. These statements may include comments regarding the closing of certain transactions including acquisitions and offerings and expectations of future participation rights payments. For a comprehensive discussion of the risks faced by the Company, and which may cause the actual financial results, operating performance or achievements of EURO to be materially different from the Company's estimated future results, operating performance or achievements expressed or implied by forward-looking information or forward-looking statements, please refer to the Company's latest Annual Information Form ("AIF"), filed with Canadian securities regulatory authorities, at [www.sedar.com](http://www.sedar.com). In addition, the Company faces the risk of potential direct or indirect operational impacts resulting from infectious diseases or pandemics, such as the COVID-19 outbreak. The Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise except as required by applicable law.

### **INTRODUCTION**

EURO presents its financial statements in Euros (€ or euros). Under IFRS, the functional currency of EURO is the United States dollar, since this is the currency in which its major transactions, such as income from royalties and the related cash are denominated.

The currency exchange rate used to present the balance sheets in euros was €1 for US\$1.1237 at June 30, 2020 (€1 for US\$1.1227 as at December 31, 2019). The average currency exchange rate for the first six months ended June 30, 2020, used to present the Company's income statements, statements of other comprehensive income and cash flow statements, was €1 for US\$1.1062 compared to €1 for US\$1.1311 for the first six months of 2019 (US\$1.1021 and US\$1.1193 for the

second quarter of 2020 and 2019, respectively). Significant transactions are translated at the exchange rate of the date of the transaction.

## RESULTS OF OPERATIONS UNDER IFRS

### Second quarter ended June 30, 2020 compared to the same period in 2019 (IFRS)

Under IFRS, EURO reported a net profit of €3.3 million (€0.053 per share) for the second quarter of 2020 compared to €4.7 million (€0.074 per share) for the second quarter of 2019.

Revenues were €5.2 million during the second quarter of 2020, a decrease of 20% compared to €6.5 million for the second quarter of 2019. Revenues were only attributable to the Rosebel royalty in the second quarter of 2020 and 2019. The decrease in revenues was mainly due to lower gold production of 42,395 ounces in the second quarter of 2020 compared to 76,208 ounces in the second quarter of 2019 (€2.9 million) due to lower throughput and ore mined as a result of the temporary suspension of operations (see news releases dated July 20, 2020 and July 27, 2020), partially offset by a higher average gold price in the second quarter of 2020 of US\$1,711 per ounce compared to US\$1,309 per ounce in the second quarter of 2019 (€1.5 million) and a weakened euro (€0.1 million).

During the second quarter of 2020, the Company recorded operating expenses of €0.21 million compared to €0.17 million during the same period in 2019. The increase was mainly explained by higher administrative costs in 2020.

The amortization expense of €0.08 million during the second quarter of 2020 was lower than the amortization expense of €0.13 million recorded during the second quarter of 2019, mainly due to lower production at the Rosebel mine.

The investment income during the second quarter of 2020 was €0.06 million compared to €0.23 million for the second quarter of 2019. The decrease was mainly due to lower interest rates applied to bank balances in 2020.

EURO recorded a foreign exchange loss of €0.19 million in the second quarter of 2020 compared to a loss of €0.02 million in the second quarter of 2019, mainly due to the revaluation of dividends payable, bank accounts and income tax payable.

EURO recorded an income tax expense of €1.5 million in the second quarter of 2020 compared to €1.8 million in the second quarter of 2019. The decrease was mainly due to the tax impact of lower earnings partially offset by the tax impact of the change in fair value of the marketable securities in the second quarter of 2020 compared to the same period in 2019.

### Six months ended June 30, 2020 compared to the same period in 2019 (IFRS)

Under IFRS, EURO reported a net profit of €8.3 million (€0.132 per share) for the six months ended June 30, 2020 compared to €8.2 million (€0.131 per share) for the six months ended June 30, 2019.

During the six months ended June 30, 2020, EURO accounted for revenues of €12.5 million, an increase compared to revenues of €12.4 million for the same period in 2019. Revenues were primarily attributable to the Rosebel royalty of €12.5 million (six months ended June 30, 2019: €12.5 million). Revenues were similar to the prior period, primarily as a result of a higher average gold price in the first six months of 2020 of US\$1,633 per ounce compared to US\$1,307 per ounce in the first six months of 2019 (€3.1 million) and a weakened euro (€0.3 million), partially offset by lower gold production of 107,794 ounces in the first six months of 2020 compared to 147,744 ounces in the first six months of 2019 (€3.4 million), due to lower throughput and ore mined as a result of the temporary suspension of operations. There were no other royalties from third parties in French Guiana for the six months ended June 30, 2020 (first six months of 2019: -€0.1 million due to a reversal of a previously over estimated royalty receivable).

Operating expenses for the six months ended June 30, 2020 were €0.33 million compared to €0.31 million in the same period in 2019. The increase was mainly due to higher administrative costs in 2020.

The amortization expense of €0.19 million during the six months ended June 30, 2020 was lower than the amortization expense of €0.26 million recorded during the same period in 2019, mainly due to lower production at the Rosebel mine.

The investment income for the first six months ended June 30, 2020 was €0.2 million compared to €0.4 million during the same period in 2019. The decrease was mainly due to lower interest rates applied to bank balances in 2020.

EURO recorded a foreign exchange loss of €0.18 million in the first six months of 2020 compared to a gain of €0.01 million in the first six months of 2019, mainly due to the revaluation of dividends payable, bank accounts and income tax payable.

EURO recorded an income tax expense of €3.7 million in the six months ended June 30, 2020 compared to €4.0 million in the same period of 2019. The decrease was mainly due to the impact of a lower tax rate and translation adjustments, partially offset by the tax impact of the change in fair value of the marketable securities in the six months ended June 30, 2020 compared to the same period in 2019.

## OUTLOOK

The Rosebel royalty production is anticipated to be between 160,000 ounces and 180,000 ounces in 2020. The range of production guidance has been lowered for 2020 reflecting the operational impact of the global COVID-19 crisis and the suspension of operations on June 12, 2020.

In 2020, the Rosebel royalty is expected to provide revenues to the Company of between approximately €18.8 million and €21.3 million (US\$21.0 million and US\$23.8 million). These pre-tax numbers assume a gold price of US\$1,675 per ounce and an exchange rate of €1 for US\$1.12. The impact of changes in the average gold price on EURO's annual revenues, based on an estimated production of 170,000 ounces, would be approximately US\$1.7 million for each US\$100 per ounce change in the gold price. The impact of a 5% change in the average foreign exchange rate on EURO's annual revenues would be approximately €1.0 million. EURO's cash flow is expected to be primarily affected by income tax payments. The Company maintains certain cash available to pursue opportunities that would enhance the Company's long-term business.

## KEY FINANCIAL DATA

### Quarterly financial information

(In millions of euros, except per share data)	Second quarter ended June 30,		Six months ended June 30,	
	2020	2019	2020	2019
Revenues	€ 5.2	€ 6.5	€ 12.5	€ 12.4
Profit before income tax	€ 4.8	€ 6.4	€ 12.0	€ 12.2
Income tax expense	€ 1.5	€ 1.8	€ 3.7	€ 4.0
Net profit	€ 3.3	€ 4.7	€ 8.3	€ 8.2
Basic net earnings (€ per share)	€ 0.053	€ 0.074	€ 0.132	€ 0.131
Total assets			€ 44.4	€ 40.4

**Quarterly data**

(In millions of euros, except per share data)	2020		2019				2018	
	Q2	Q1	Q4	Q3	Q2	Q1	Q4	Q3
Revenues	5.2	7.2	6.0	5.7	6.5	5.9	6.9	5.4
Net cash flow from operating activities	5.4	4.2	3.4	4.8	4.5	5.1	3.7	4.2
Net profit	3.3	5.0	4.2	3.5	4.7	3.6	4.8	3.2
Basic and diluted earnings per share	0.053	0.080	0.068	0.056	0.074	0.057	0.077	0.052

**LIQUIDITY AND CAPITAL RESOURCES**

Cash at June 30, 2020 totaled €28.7 million as compared to €31.6 million at December 31, 2019. The decrease was mainly due to the dividends paid partially offset by cash flow from operating activities. EURO expects to have sufficient cash flow to fund its on-going operational needs.

**MARKETABLE SECURITIES**

EURO holds marketable securities related to mining companies which are part of a volatile market. Share market price exposure risk is related to the fluctuation in the market price of marketable securities. Under IFRS, investments in marketable securities are recorded at fair value with changes in fair value recorded in other comprehensive income.

As at June 30, 2020, marketable securities were comprised of 19,095,345 shares of Orea Mining Corp. ("Orea") (9.7% of outstanding shares; December 31, 2019: 10.6%) and 3,819,069 shares of Allegiant Gold Ltd. ("Allegiant") (6.2% of outstanding shares; December 31, 2019: 6.2%).

During the six months ended June 30, 2020, the Company recognized an unrealized gain under IFRS following the increase of the fair value of these marketable securities. Under IFRS, this gain of €0.3 million was recorded in other comprehensive income (loss of €0.6 million during the six months ended June 30, 2019).

**ROYALTY ASSETS**

The carrying amounts of the Company's royalty are reviewed at each reporting date to determine whether there is any indication of impairment.

**Rosebel mine**

No indication of impairment was identified for the Rosebel royalty as at June 30, 2020.

**Paul Isnard project**

During 2019, the following events took place:

- The appointment in January of two guarantors of public participation in the development of the project until the opening of the public inquiry into the permit applications by France's Commission Nationale du Débat Public (CNDP).
- The announcement on May 23 by the Ministry of Ecological Transition and Solidarity following the end of the first meeting of the Ecological Defence Council of the incompatibility of the project in "its current state" with the environmental protection requirements. Following this announcement, the Compagnie Minière Montagne d'Or (the joint venture) reaffirmed through a press release its commitment to maintaining an open and constructive dialogue with all stakeholders.

The statements by the French Government regarding the Compagnie Minière Montagne d'Or, to which the Paul Isnard royalty is attached, have created some uncertainty around the delivery of the various authorizations and permits not yet obtained and required for developing the project, and can potentially affect the operational and financial capacities of the project.

Failure to obtain operating permits would result in the need to depreciate in full the net book value of the assets relating to the Paul Isnard royalty.

As of June 30, 2020, the CNDP had not yet submitted its conclusions and work is continuing on both the design of the project and the environmental framework around it. According to the press release issued by Orea Mining Corp. on June 4, 2020, the engineering studies for the project's improvements and modifications for mining permits are expected to be completed by mid-year.

In light of the above, the Company maintains the same assumptions as in the impairment test performed as at December 31, 2019. The Company believes that it is premature to conclude that an impairment should be recorded on the Paul Isnard royalty asset at this stage. Therefore, The Company continues to assume that the various authorizations and permits would be granted under conditions that will allow the joint venture to go forward with this project, although the timing is somewhat uncertain. No impairment charges were recorded in the statement of earnings for the second quarter ended June 30, 2020.

### **SHARE CAPITAL**

As at June 30, 2020, and the date of this MD&A, the Company had 62,491,281 common shares outstanding with a par value of €0.01 per share. There were no shares issued during the first six month period of 2020.

### **DIVIDENDS**

The annual general meeting of shareholders held May 20, 2020 approved dividends in the amount of €12.5 million (€0.20 per share) which were paid to the Company's shareholders on June 11, 2020.

### **CRITICAL ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS**

The Company's management makes judgments in applying its accounting policies in the preparation of its financial statements. In addition, the preparation of financial data requires that the Company's management make assumptions and estimates of effects of uncertain future events on the carrying amounts of the Company's assets and liabilities at the end of the reporting period and the reported amounts of revenue and expenses during the reporting period. Actual results may differ from those estimates as the estimation process is inherently uncertain. Estimates are reviewed on an ongoing basis based on historical experience and other factors that are considered to be relevant under the circumstances. Revisions to estimates and the resulting effects on the carrying amounts of the Company's assets and liabilities are accounted for prospectively. The significant accounting judgments, estimates and assumptions of the Company are reflected in note 4.9 of the Company's annual financial statements for the year ended December 31, 2019.

### **SIGNIFICANT ACCOUNTING POLICIES**

The Company's unaudited condensed interim financial statements have been prepared following the same accounting policies and methods of computation as the annual audited financial statements for the fiscal year ended December 31, 2019.

**RELATED PARTY TRANSACTIONS**

Revenues from royalties related to the Rosebel mine during the second quarter of 2020 were €5.2 million (first six months of 2020: €12.5 million) compared to €6.5 million during the second quarter of 2019 (first six months of 2019: €12.5 million). The related amount receivable at June 30, 2020 was €4.9 million (December 31, 2019: €5.9 million) and was included in trade receivables.

During the second quarter of 2020, the Company accounted for IAMGOLD's support fees totaling €0.018 million (first six months of 2020: €0.036 million) compared to €0.019 million during the second quarter of 2019 (first six months of 2019: €0.041 million). These charges are included in administrative costs in operating expenses. The related amount payable at June 30, 2020 was €0.004 million and was included in trade payables and other current liabilities (December 31, 2019: €0.009 million).

**GLOBAL COVID-19 CRISIS**

The global COVID-19 pandemic continues to evolve including the continuing imposition of restrictions on the movement of people and goods, social distancing measures, restrictions on group gatherings, quarantine requirements and contact tracing. The Company has been closely monitoring and taking necessary measures to manage the impact of the COVID-19 crisis on all aspects of its operations.

The Rosebel mine in Suriname was moved into self-confinement on March 22, 2020 to better protect employees and communities, and to support the continuity of operations. Given the surge in COVID-19 infections in Suriname, a number of personnel at Rosebel were diagnosed with COVID-19. In response, the unionized employees at Rosebel initiated a work stoppage on June 12, 2020 which required Rosebel to concurrently suspend operations. In conjunction with the Surinamese Health Authorities, Rosebel implemented all required preventative measures. Rosebel was put under quarantine by the Health Authorities on June 25, 2020. The quarantine was subsequently lifted on July 15, 2020. The suspension of operations ended on July 16, 2020, with the recall of employees and contractors beginning shortly thereafter. Operations resumed on July 24, 2020 with the restart of the mill and mine operations.

**DISCLOSURE CONTROLS AND PROCEDURE AND INTERNAL CONTROL OVER FINANCIAL REPORTING**

The Directeur Général and the Directeur Général Délégué have reasonable assurance that material information relating to the Company are known to them. The Directeur Général and the Directeur Général Délégué have concluded that the Company's disclosure controls and procedures and internal control over financial reporting are effective.

**ADDITIONAL INFORMATION**

Additional information relating to EURO Ressources S.A. is available on SEDAR at [www.sedar.com](http://www.sedar.com).
