Guyanor Ressources SA Provides Update on Status of Late Financial Statement Filing

PARIS, France, April 6, 2005: Guyanor Ressources S.A. (TSX: GRL: Nouveau Marché, Paris: GOR) announced today that it has not been able to file its audited financial statements for the year ended December 31, 2004 in the time required by Canadian securities regulations.

At the request of Guyanor, the British Columbia Securities Commission, Guyanor's principal Canadian regulator, has issued a cease trade order against Guyanor's directors. The effect of this cease trade order is that Guyanor's directors may not purchase or sell securities of Guyanor until Guyanor has filed its audited financial statements and the British Columbia Securities Commission has revoked the cease trade order.

This cease trade order does not restrict the ability of Guyanor's other shareholders to trade shares of Guyanor.

For the purposes of preparing its audited financial statements, Guyanor's auditors in Canada and France collaborate to prepare audit reports on Guyanor's financial statements, which are presented in accordance with both Canadian and French GAAP. Guyanor also engages an internationally recognized independent accounting firm in Cayenne, French Guiana to assist in the preparation of its French financial statements. Due to staff shortages, these independent accountants in Cayenne have not been able to provide all the required supporting information regarding Guyanor's 2004 financial statements to Guyanor's auditors.

Guyanor is not yet able to provide a firm date as to when it expects to be in a position to file its Canadian GAAP audited financial statements, although it is anticipated that the financial statements will be prepared shortly and certainly within the next two months.

Guyanor will provide bi-weekly updates to the market regarding the process relating to the preparation and filing of its financial statements and related matters, until such time as Guyanor is current with its filing obligations under Canadian securities laws.

Guyanor will also not be able to timely file its Canadian Annual Information Form ("AIF") due to the delay in filing Guyanor's audited financial statements for the year ended December 31, 2004. Guyanor will file its AIF concurrently with its audited financial statements for the year ended December 31, 2004 when they become available.

Guyanor expects to timely file its French GAAP financial statements in accordance with French regulatory requirements.

Guyanor is a French company, focused on the acquisition of royalty and similar interests in mining properties, principally gold. It has an existing portfolio of exploration and development properties in French Guiana. Guyanor has approximately 45 million shares outstanding.
